## Associate - Funds

- Global fund manager
- Excellent internal opportunities
- High profile role

This company is one of the largest fund managers globally within an exciting growth period and they require an Associate to be their infrastructure specialist.

The role will encompass preparation of investment committee papers; management of an existing portfolio of companies; due diligence and the execution of new investment opportunities; Infrastructure industry and company research; financial modelling and valuation analysis.

The successful candidate will approximately 2-3 years working within an infrastructure fund or an investment banking team specific to infrastructure or utilities. You will also need to have effective communication skills and be a lateral thinker with the ability to identify solutions to complex problems.

Specifications:

- Preparation of investment committee papers
- Management of existing portfolio companies
- Due diligence and the execution of new investment opportunities

Candidates:

3-6 years in a financial analysis role in investment banking funds management, accounting or management consulting; Strong modelling skills. Modelling of infrastructure type investments is preferred but not necessary; Effective communication skills, lateral thinker with the ability to identify solutions to complex problems.
